Professional Summary

Front-end developer with an MCA (2026), looking for a React.js internship. Has built and deployed three React projects to the web: a hotel booking app with Clerk authentication, an e-commerce store using Redux Toolkit and a REST API, and a personal portfolio. Works with React Hooks, React Router, Tailwind CSS and Chrome DevTools. Available immediately and comfortable working remotely.

Skills

Languages: JavaScript (ES6+), HTML5, CSS3
React & State: React.js, React Hooks, Redux Toolkit, Context API, React Router DOM
UI & Styling: Tailwind CSS, Responsive Design, Flexbox, CSS Grid
APIs & Auth: RESTful APIs, Fetch API, Async/Await, Clerk
Tools: Git, GitHub, Vite, VS Code, Chrome DevTools, Vercel

Projects

Hotelio – Hotel Booking Web Application | Live Demo Nov 2026
React.js, JavaScript, Tailwind CSS, React Router DOM, Clerk

- Built 3 core pages (destination discovery, room listings, room details) with React and Tailwind CSS, responsive across screen sizes.
- Integrated Clerk authentication for customer bookings and built a separate dashboard for hotel owners.
- Set up multi-page routing with React Router DOM and split the UI into 5+ reusable components.

ShopSphere – E-Commerce Web Application | Live Demo Oct 2026
React.js, JavaScript, Tailwind CSS, Redux Toolkit, REST API

- Integrated the Fake Store API using Fetch and async/await to load 20+ products across 4 categories, with product search.
- Managed cart and wishlist state with Redux Toolkit and React Hooks.
- Debugged incorrect checkout total calculations and tested the layout across browsers using Chrome DevTools.

Personal Developer Portfolio | Live Demo Oct 2026 – Present
React.js, JavaScript, Tailwind CSS, Vite

- Built a dark-themed, mobile-first responsive site with 4 sections to showcase projects.
- Implemented a typewriter animation, mobile navigation and active-section highlighting using IntersectionObserver.
- Checked performance in Chrome DevTools; code on GitHub, deployed on Vercel.
